

NZMCA Parks Reserved Parking Site Policy

When parking next to a 'reserved parking' sign remember to leave enough space to retain a minimum 3m gap when the other vehicle returns.

This policy applies when a member staying at an NZMCA Park wants to reserve their parking site during the day. This policy does not apply to other overnight parking sites outside of the NZMCA's control.

How it works

After a member has arrived on site, registered and paid the applicable overnight parking fee, they may temporarily reserve their parking site when leaving an NZMCA Park for a few hours during the day, e.g. to go shopping or visit a local attraction.

Terms & Conditions

- A member **cannot reserve** a parking site overnight, prior to first arriving at the park, or for other members who have not yet arrived at the park.
- Upon reserving their parking site and prior to leaving the NZMCA Park during the day, the member **must register their details** in the 'Reserved Parking Site' book (this is in addition to the self-registration book) and include their membership number, vehicle registration, estimated same-day return time and mobile number.
- **A single 'reserved parking' sign including the membership number must be clearly displayed** on the parking site. *The member is responsible for creating their own all-weather sign.*

The sign must be displayed in a sturdy position while remaining clearly visible to other members and park custodians.

- A member **may not remove another members 'reserved sign' without their permission.** Park custodians may, at their discretion, remove signs in reasonable circumstances, after which the parking site becomes available for another member to occupy.
- When parking next to a 'reserved parking' sign members must leave enough space for a minimum 3m gap when the other vehicle returns.
- All members are encouraged to settle any disputes amicably among one another before contacting a park custodian or the National Office for assistance.

NZMCA Parks – Reserved Parking Site Policy

COMMERCIALIALLY SOURCED SIGNAGE SUGGESTIONS

ROAD CONE WITH RETRACTABLE CONE BAR

High-grade PVC cones in various sizes paired with lightweight and portable barrier system that can provide an instant separation. Retractable 1150 - 2000mm, ideal for temporary barriers.

Simply print the required wording on a sheet of paper, laminate and tape over cone bar.

Approx. cost \$22 for each cone and \$19 for the cone bar.

PORTACONE, 900MM WITH 2 REFLECTIVE COLLARS

900mm high Port-A-Cone which can be collapsed into a small flat carry bag. 2 reflective strips. Internal LED light powered by AAA batteries.

The middle is hollow; you can put a stick/dowel in the middle to hold up the 'reserved parking sign'.

Approx. cost \$24.95 for the cone
