

CAMPSAVER

FULL PROGRAMME INFORMATION - T&C'S

1. What is CampSaver?

CampSaver is an NZMCA member benefit, in which campgrounds who partner with the NZMCA offer the CampSaver rate to members during the specified season to encourage occupancy.

It's a win/win for both campground operators and members. In offering an affordable rate to NZMCA members, campgrounds can receive necessary income from sites that usually sit unused during the months outside the peak season. There are two separate seasons within CampSaver: Winter (the off-season) & Summer (the shoulder season). Both seasons have a different deal on the rate, list of participating, and duration the deal can be redeemed.

2. How does it work?

a) NZMCA Members need to present their valid membership card at participating campgrounds and request 'CampSaver' (or something to that effect), to receive the CampSaver rate for the relevant season's deal:

Rate for Winter 2021 - in effect from the 6th Apr - 30th September 2021 (excl. all long weekends/public holidays & select peak periods - 16 - 19 April & 3 - 5 September, 2021)

Up to \$22 for 2	2 x Adult
Up to \$15 for 1	1 x Adult
\$11	Extra Adults (exceeding 2 in a vehicle)
\$5	Children (at the age considered a child)

If a powered site isn't available, a non-powered will be offered in its place, at the same rate, where available

b) It is up to the discretion of the campground if the rate is given:

- i. When the member fails to request the rate.
- ii. When the membership card is lost or expired (over the phone confirmation of membership can be given by calling the NZMCA - 09 298 5466 ext. 704 (between hours 8-4:30, Mon-Fri).

c) The rate applies to an NZMCA member (membership card holder) and extends to all persons travelling in the same vehicle at the rates above

- i. 'Membership' and 'card holder' refer to NZMCA members whose names are printed on the membership card.
- ii. For any persons travelling in separate vehicle to a membership card holder, the rate does not extend to them.

d) Membership is non-transferable so a membership card should not be lent to non-members

- i. Transferable membership occurs when a non-member attempts to use the membership card without the card-holder present
- ii. Campgrounds may ask for a secondary form of ID to verify this

e) All long weekends/public holidays, anniversary days and select peak weekends (relevant to specific campgrounds) are excluded from the program.

- i. Participating campgrounds are not required to offer the rate during these dates.
- ii. Campgrounds may offer the rate during any of the excluded periods if they choose to do so.

3. What does ‘CampSaver’ affect, at a campground?

a) CampSaver only affects a campgrounds rate (aka. a campgrounds ‘current’, ‘public’ or ‘full price’ rate is what the discount/CampSaver rate is applied to).

- i. CampSaver does not change the operations or rules of a campground, but works alongside their current structure, and the NZMCA does not dictate how the campground is run, including check in and check out times, which are compulsory).
- ii. Several factors (see below) are associated with the rate. Anything not clarified in the online Travel Directory listing and Travel App, is often up to the campgrounds discretion, or by negotiation:

Conditions surrounding the rate

Age of a child	Each campground has their own definition of what they consider a ‘child’ & may choose to offer specific ages free of charge
Facility fees	There may be an additional fee for use of any facilities. Facilities offered and their costs will be different at each campground
Closures	A campground may be unexpectedly closed entirely during the CampSaver period, for reasons such as maintenance, illness, planned holidays etc
Max. Stay	All campgrounds determine the max length of time a person can stay at their campground on the CampSaver rate

- iii. Check in and check out times are compulsory rules set by the campground. Fees may apply for failure to abide by this.

DISCLAIMER: The agreement made between the NZMCA and participating campgrounds is that CampSaver affects the ‘rate’ at a campground. Policies and procedures of the campground outside the rate are not dictated by the NZMCA. Failure to check the information provided in the Travel Directory/App and campground’s website may result in member dissatisfaction of the program. Participating camps are not liable to make any exceptions to NZMCA members. The NZMCA cannot guarantee that all the information provided in the Travel Directory/App, and each campground’s website is up to date as the information is subject to change, so members must always call ahead.
